

Laboratory Inventory — Dashboard

All figures are formula-derived from source Tables (no manual stock numbers).

Key statistics

Total active products	6
Total available containers (usable)	15
Containers in use	2
Expired containers (any status)	2
Available expiring ≤30 days	0
Available expiring 31–60 days	0
Available expiring 61–90 days	0
Products out of stock	0
Products below minimum (reorder)	1
Products low (below target)	4
Received last 14 days	3
TakeOpen last 14 days	0
Frequently used (TakeOpen count)	4

Product stock status (all active products)

Product	Available	Min	Target
Pipette Tips 200 uL (96/box)	3	3	8
Laboratory Tubes 15 mL (100/box)	3	2	6
Ethanol 96% (500 mL)	4	2	4
Methanol 99.8% (1 L)	1	1	3
Reagent A (Tris buffer, 500 mL)	2	1	4
Nitrile Gloves M (100/box)	2	4	10

Inventory by category

Category	Available
Pipette Tips	3
Tubes	3
Solvent	5
Reagent	2
Consumable	2
General	0

Most frequently used products (TakeOpen count)

Product	TakeOpen count
---------	----------------

Pipette Tips 200 uL (96/box)	1
Laboratory Tubes 15 mL (100/box)	1
Ethanol 96% (500 mL)	1
Methanol 99.8% (1 L)	1
Reagent A (Tris buffer, 500 mL)	0
Nitrile Gloves M (100/box)	0

Inventory by storage location (usable available)

Location	Available
Chemical Cabinet 1	5
Chemical Cabinet 2	0
Fridge 1	2
Plastics Shelf A	8
Plastics Shelf B	0
Freezer -20C	0

Compliance boundary: operational inventory control only — not an SDS, EHS, GMP/GLP, or validated LIMS system
